Here's your story:
Once upon a time, there was a person named LAVANYA who was 18 years old.
LAVANYA loved the color blue and always carried a blue item with them.
One day, LAVANYA decided to visit AP with their best friend TEJUMOHITHA.
They dreamed of becoming a software engineer and talked about it all the time.
In AP, they found a shop selling items for \$5000.0.
LAVANYA bought an item with a 10% discount, so the final price was \$2500.0.
LAVANYA had 3 pets at home and couldn't wait to tell them all about the adventure.
By the way, in 5 years, LAVANYA will be 25 years old!
And don't forget, LAVANYA's favorite number is 7 and they love 5.7 as a decimal.
